

# Instructions for Poster Presenters

1. [Please refer to the program](#) to determine which poster session you are in, and then upload your materials to the corresponding padlet (links below). The password is AMP2020. You may do this without creating a padlet account, but you are also welcome to make a free account with padlet [here](#).
  - a. Poster session 1: <https://padlet.com/AMP2020/posters1>
  - b. Poster session 2: <https://padlet.com/AMP2020/posters2>
  - c. Poster session 3: <https://padlet.com/AMP2020/posters3>
  - d. Poster session 4: <https://padlet.com/AMP2020/posters4>
2. When you go to the padlet page, you will see a number of columns. Please find the column with the same number as your poster; we have already included the title and author names provided in your abstract.

3. Each column has empty pre-generated posts which you can use to manage your poster presentation. To edit these posts, you'll need to click the pencil icon, and then click the upload button to upload your materials.

4. Please add your materials to the pre-generated posts, in the following order:
  - a. Poster pdf \*
    - i. Posters should be in PDF format, as if they were going to be printed at 3ft x 4ft (36in x 48in; 92cm x 122cm), oriented vertically or horizontally. They should be uploaded to the post labeled with the title and authors.

- b. Audio/Video \*
  - i. We encourage poster presenters to make a short video presentation to accompany the poster, to act as your brief poster spiel. This video should be **no longer than five minutes**. If you are unable to make a video, a brief audio recording can work as well.
  - ii. For guidance on how to make videos, please see **step 2** here: [https://blogs.umass.edu/cuny2020/information-for-virtual-poster-presenter/s/?fbclid=IwAR0v-9ZgTkJRggFeTEzFz5luRIF1sIXTFae-\\_a8w1r9ss-11dfvvsdGWUs](https://blogs.umass.edu/cuny2020/information-for-virtual-poster-presenter/s/?fbclid=IwAR0v-9ZgTkJRggFeTEzFz5luRIF1sIXTFae-_a8w1r9ss-11dfvvsdGWUs). The other steps are not relevant for AMP.

- iii. The file size limit per post is 250MB. Keep the size limit in mind as you select video quality. It also may take some time to upload larger files. You should see the following message while you wait for your files to upload

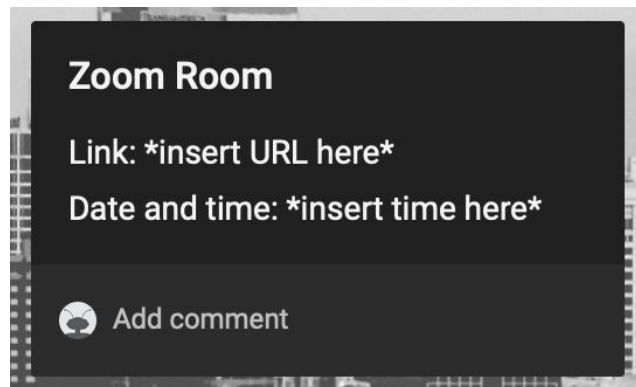

### Uploading Video Presentatio...

Hang tight, we'll be done in a jiffy.

CANCEL

- c. In the post labelled Zoom Room, provide a link to the meeting where you will host your office hours, including the date/time when you will be there. If you are using a university zoom account, make sure not to restrict entrance to zoom accounts from the same domain.

5. Please at minimum upload a version of your materials by **September 12** to give us ample time to resolve any technical issues. You will continue to have editing access until **midnight the night before the start of the conference (11:59pm PST, Sept. 17)**, in case you would like to make changes. Editing will be disabled once the conference starts. To make any further changes, please contact [phonology@ucsc.edu](mailto:phonology@ucsc.edu).

\* required to count as having presented at AMP
